JACKSONVILLE, ILLINOIS, SATURDAY MORNING, OCTOBER 1, 1904.

CONDITION IS STILL SERIOUS

PAYNE HAD SINKING SPELLS YESTERDAY

Several Times During Day Physician Thought the End Was Near—Heart Specialist of Baltimore Called into the Case

Washington, Sept. 30.—The condition of Postmaster General Payne continued extremely grave throughout the day. There were several times during the day, in the early morning and late afternoon, when attending physicians believed the end was near, but the patient responded to heroic remedies applied and seemed to regain some of the lost ground. To night at about 8 o'clock Payne fell into a restless sleep, which continued some time. The doctors regarded this as encouraging for a peaceful night.

The greatest cause for alarm during the day was feebleness of the heart action, and it was found necessary to administer a saline solution and nitroglycerine to stimulate that organ. The response was gratifying. The most hopeful sign of the case is the fact that he has been able to retain nourishment given him to day.

Except during sinking spells, several of which occurred during the day and evening, Payne retained consciousness all the time and his mind appeared active and alert. Several times he asked questions of those about him, indicating his interest in what was transpiring.

Physicians are constantly at the bedside, but aside from them and the nurse no one except Mrs. Payne has been allowed in the sick room. Mrs. Payne, although very much overworked by the condition of her husband, has borne up bravely.

Dr. William Osler, heart specialist and distinguished of Baltimore, was brought into the case this evening. Osler said that while Payne's condition was critical, he had hopes that with a restful night the would show improvement in the morning. At the same time, he added, the case was like a "tip in the balance, it might go one way or the other."

Everywhere in official circles, the deepest concern and solicitude was manifested in the outcome. The president is being kept constantly advised during the day and both he and Mrs. Roosevelt called in person during the day and evening. Mrs. W. S. Cameron, of Jamestown, N. Y., the only sister of the postmaster general, arrived this evening. Her son, M. H. Cameron, of Milwaukee, also has been summoned here. Among numerous telegrams of sympathy and inquiry received are some from abroad and telegrams have arrived in large numbers from Wisconsin and especially from Payne's home city of Milwaukee.

At midnight Payne was still asleep and the opinion was expressed he might remain asleep the rest of the night. Doctors Magruder and Grayson are remaining at the Payne apartments all night. Both retired at midnight. Members of Payne's household also have retired.

RESTING EASY.
Washington, Oct. 1.—At 2:35 this morning (Saturday) Payne apparently was resting quietly.

LAWYERS AND JURISTS

Discuss Subject of Judicial Action of Foreign Nations.

St. Louis, Sept. 30.—The program arranged for the universal congress of lawyers and jurists was completed to day. The first subject for consideration was "To What Extent Should Judicial Action of Foreign Nations Be Recognized?" It was presented by Hon. Sir William R. Kennedy, justice of the high court of England, and was considered with especial reference to the status of individuals as affected by divorce or other decrees and the right to represent the person or property of another.

The opinion was expressed generally by the distinguished delegates from every nation represented, that the congress marked an epoch in relations existing between lawyers of the world, which relationship would be far-reaching in finally establishing a complete understanding between nations, leading to the eventual extinction of war.

A resolution was adopted requesting the American Bar association to take such steps as are necessary to organize a permanent association of lawyers representing the different countries of the world.

The congress also adopted a resolution expressing its profound grief over the death of Senator Hoar.

HAY WILL REMAIN

Secretary of State to Stay in the Cabinet if Roosevelt is Re-elected President.

Chicago, Sept. 30.—That Secretary of State John Hay is to remain at the head of the state department in case President Roosevelt is elected in November has been settled, according to President Benjamin H. Wheeler of the University of California, who was in Chicago to day on the way from California from the east. In an interview with the Associated Press Wheeler said: "The best news I had while in the east I had from President Roosevelt to the effect Hay has now definitely consented to remain at the head of the state department in case of Roosevelt's election."

GRANTED REHEARING.
Des Moines, Iowa, Sept. 30.—The supreme court to day granted a rehearing in the case of the city of Okaloosa vs. Martin, involving the validity of several million dollars of paving contracts in the state. An ordinance complying with the state law is necessary to make paving assessments legal. Only two cities in the state have such an ordinance and all paving assessments since 1901 might have been knocked out and cities instead of property owners forced to pay. Des Moines is involved to the extent of half a million.

MEAT DEALERS SUFFER

Block of Packing Houses and Refrigerator Plants are Destroyed by Fire

New York, Sept. 30.—Nearly a quarter million dollars loss was caused by a fire in a big block of meat packing houses and refrigerator plants in Tenth avenue, which burned steadily throughout the night before it was brought under control. The heaviest losers areudahy Packing company, Conner Bros., T. A. Wheeler & Co., and Hammond Co. Fire Chief Croker came naming death by falling into the cellar of a building, the floor of which collapsed. His hand was badly cut. Two score firemen were overcome by ammonia.

PETITION FOR INTERVENTION.
Washington, Sept. 30.—A petition calling upon the president to intervene in the affairs of the Congo Free State in the interests of civilization was presented to President Roosevelt to day by the person to whom it had been intrusted, E. D. Morel. The petition is numerously signed by men whose names are known throughout the world. The signers appear to be about evenly divided between the Conservative and Liberal parties in England.

GRANTED CHANGE OF VENUE.
Chicago, Sept. 30.—Judge Korsten decided to day to grant a change of venue in the Troquois theatre case on petition of two defendants, and Treasurer Noonan and Judge Carpenter Cummings of the Troquois theatre, will be allowed to have their trial on charge of manslaughter removed to another county. Will J. Davis, president of the Troquois Theatre company, did not petition with the others.

MANAGER OF MISSOURI PACIFIC.
Chicago, Sept. 30.—A. W. Sullivan, assistant second vice president of the Illinois Central, has been appointed general manager of the Missouri Pacific, headquarters St. Louis. Sullivan will assume the duties of the new position at once. The management of the Illinois Central have decided to abolish the position of assistant second vice president. Sullivan has been with the Illinois Central thirty-four years.

WILL NOT TAKE STUMP

New York, Sept. 30.—It was announced at Democratic headquarters to day that the statement that Cleveland "was about to go upon the stump" is absolutely without authority either from himself or from the Democratic national committee. "In other words," however, it is stated Cleveland will go all he can to promote Democratic success.

OPTION SECURED

Bellingham, Wash., Sept. 30.—Rockfall interests are declared to have secured an option on the estate of the late P. B. Cornwall and if the report is true the Bellingham Bay & British Columbia railway may fall into the hands of the Chicago, Milwaukee & St. Paul railway as an outlet to the coast.

BROTHERS DROWNED

Sioux City, Iowa, Sept. 30.—George and Charles Bonham, farmers, were drowned in Oliver lake, Monona county, while fishing. George became entangled in a seine and his brother went to his assistance. The bodies were recovered.

BROTHERHOOD OF ST. ANDREW

Philadelphia, Sept. 30.—An address by the archbishop of Canterbury and election of a general council were the features of to day's sessions of the Brotherhood of St. Andrew.

LADY CURZEN'S CONDITION.

Wahner Castle, Kent, Sept. 30.—Lady Curzen passed a quiet night and was somewhat better to day.

THE DEATH OF SENATOR HOAR

MOURNED BY ALL CLASSES OF CITIZENS

Tribute to His Worth Paid by People Irrespective of Party—Funeral of Deceased Senator Will Be Held Monday.

Boston, Sept. 30.—News of the death of Senator Hoar was received with regret by all classes of citizens. In politics he had no enemies in this state. Democrats were not behind members of his own party in paying tribute to his worth. Soon after daylight the flags on the state house were half masted and later similar tokens of mourning were displayed on other buildings of the city.

Goerner Bates issued a proclamation announcing the death of the senator and after a feeling eulogy to the worth of the deceased directed the state departments be closed on the day of the funeral, requested flags throughout the commonwealth be placed at half mast and that the people by such appropriate methods as may suggest themselves express their respect for Hoar's memory.

Worcester, Mass., Sept. 30.—It is understood the late Senator Hoar's funeral will be held Monday. J. Rev. Edward Everett Hale, chaplain of the senate, will be asked to officiate.

Tributes to Hoar were uttered to day by prominent men of this city and vicinity and hundreds of messages of condolence were received by the family.

TRIBUTE FROM THE PRESIDENT.
Rockwood Hoar to day received the following message from President Roosevelt: "Accept my most profound sympathy. The loss is not yours only, but of all those who believe in a lofty standard of purity, integrity and fearlessness in public life."

CLEVELAND'S TRIBUTE.
Buzards Bay, Sept. 30.—Former President Grover Cleveland said to night: "Senator Hoar's death is a positive loss to our nation. His ability, his high-mindedness, and his freedom from political trickery furnish an example of useful life which may well be imitated by all those entrusted by their countrymen with public duties."

TROUBLE IN MOROCCO

Governor Murdered and Many People Killed.

Tangier, Morocco, Sept. 30.—The governor of Arzila, who was the father-in-law of former War Minister El Menehbi, has been murdered at Arzila by the people of surrounding tribes. The murder was committed out of revenge for the action of the governor in imprisoning members of the tribes. The murderers released the prisoners at Arzila and killed many of the townspeople. Great alarm prevails at Arzila and authorities have appealed to the representative of the sultan at Tangier to send assistance.

ADDRESS ON ISTHMIAN CANAL

Chicago, Sept. 30.—John E. Wallace, chief engineer of the Panama canal, delivered an address on "The Isthmian Canal" at a banquet given him here to night by four hundred members of the Illinois Manufacturers' association at the Auditorium. He discussed various phases of the problem of the canal on the sea level or above, which the engineers are now attempting to solve. He said that while a sea level canal would cost more, the result would be better and the canal could at any time be changed.

MURDERER HANGED

Chicago, Sept. 30.—Frank Lewandowski was hanged in the jail yard here to day. Lewandowski, in a drunken rage cut his wife's throat, then his own, because she would not compel her stepson to work. The slayer hovered between life and death for weeks. Too poor to hire a lawyer, he had one appointed by the court. Governor Yates twice reprieved him.

COLORADO BANDIT

Silverton, Colo., Sept. 30.—A masked bandit shot and killed John Loftis and seriously wounded two others in a gambling house to day and then killed himself. The shooting was the result of the refusal of those in the gambling room to throw up their hands when ordered to do so by the bandit.

BISHOP OF HELENA

Rome, Sept. 30.—The congregation propaganda to day issued a brief appointing Rev. John B. Carroll, of Montana, to be bishop of Montana.

Butte, Mont., Sept. 30.—The appointment of Rev. John B. Carroll, president of St. Joseph college, Dubuque, Iowa, as bishop of Helena diocese was not unexpected. It has been known some weeks Dr. Carroll was a candidate. A dispatch from Rome stating that Rev. John B. Carroll is of the Holy Family mission, Montana, is evidently erroneous, as that Father Carroll is a Jesuit and Jesuits are not eligible for bishoprics.

FLOOD IN COLORADO

Great Damage at Trinidad and in Valley of Las Animas River.

Trinidad, Colo., Sept. 30.—A terrific flood struck Trinidad and the whole valley along Las Animas river, devastating a wide section and causing a loss of several hundred thousand dollars. As far as known there was no loss of life. Every bridge in the city of Trinidad is out, the Santa Fe station demolished, all railroads tied up and telephone and telegraphic service completely suspended. More than three hundred blocks were two to four feet under water along the river. The flood was caused by rain which had been falling for two days. At 8 o'clock last night the storm assumed cloudburst proportions and at 2 this morning the Las Animas river went over its banks. At 3:30 it was impossible to get within a block of the river at any point and the commercial section was flooded for three blocks in the heart of the business district. Meantime the electric light and gas plant had been flooded and the city was in complete darkness. Citizens upon rafts made of sections of sidewalks paddled through the streets, rescuing families endangered. The New Buena hotel, just nearing completion at a cost of \$25,000, on the river bank, was destroyed. The Santa Fe depot was carried away. The big Grande bridge at Elmore is out and the Santa Fe right of way in many places has been washed out. Railroad traffic is entirely suspended.

THE LAFOLLETTE CASE

Court Adjourns Until Oct. 18th Without Rendering a Decision

Madison, Wis., Sept. 30.—The supreme court adjourned until Oct. 18 without taking action on the Lafollette case.

The failure of the supreme court to take action in the case to day renders it imperative that a decision be handed down either on Oct. 18, the date to which adjournment was taken, or the day following. Under the statutes of Wisconsin the secretary of state is bound to certify to the various county clerks the names of nominees not more than twenty days nor less than fourteen days prior to election, which this year comes on Nov. 8. There is no restraining order in effect at present against the secretary of state and unless the court should decide the case by Oct. 18, Secretary Housner will be free to certify the names of the Lafollette candidates, of which he himself is one.

POLITICAL

SENATOR FAIRBANKS

Tacoma, Wash., Sept. 30.—Senator Fairbanks' speech at the Tacoma theatre to night was devoted largely to the settlement of the Alaskan boundary dispute. He concluded a lengthy review of negotiations and final settlement with this statement:

"A grave territorial dispute has been honorably and peacefully settled. We are indebted to the Republican administration for the result accomplished. It is one of the great achievements which make for peace and Roosevelt is entitled to great credit for its accomplishment."

Both Senators Fairbanks and Dooliver addressed an overflow meeting at the Lyceum theatre.

Sensor Fairbanks and party were on the summit of the Cascade mountains when the news of the death of Senator Hoar reached him through newspapers brought aboard the train. Senator Fairbanks and his senatorial companions, Senators Dooliver, Foster and Anthony, expressed deep regret over the news, also Colonel Randall, sergeant-at-arms of the senate.

CANNON IN SNAKE

Des Moines, Sept. 30.—Speaker Cannon addressed large political meetings to day at Creston and Osceola and to night at Des Moines, where his audience filled the Auditorium in spite of inclement weather. In his address at Des Moines to night Cannon's most notable utterances were on reciprocity. He defined reciprocity according to Republican standards to be reciprocal trade arrangements for the admission to American markets of products from other countries not produced here in exchange for free admission of American products.

Cannon took exception to Parker's quotation of McKinley's reciprocity views in his letter of acceptance. "This is what Parker says McKinley said: 'We must make sensible trade arrangements if we wish to extend the outlet for our increasing surplus.' Now here is what McKinley really did say: 'We must make sensible trade arrangements which will not interrupt our home production; to extend the outlets for our surplus.'"

Cannon will leave Des Moines to morrow morning for Scott county to speak at two meetings at Eldridge and Davenport.

SENTENCED TO PRISON

St. Louis, Sept. 30.—John H. Schnetter, former member of the house of delegates, who pleaded guilty to charges of bribery in connection with the suburban railway deal, was to day sentenced to two years imprisonment.

ADVANCE UPON RUSSIAN ARMY

BEGUN BY THE JAPANESE FORCES

Field Marshal Oyama Gradually Pushing His Army Toward Mukden—London Paper Reports Japanese Victory.

Field Marshal Oyama has begun the long-expected advance upon the Russian army at Mukden and a co-incident movement against Shantung is indicated by the fact that the Japanese have occupied Shaoheho, west of the Liao river. There is concentration of Japanese forces in the vicinity of the Yental mines and they are gradually being pushed eastward. General Sakharoff in dispatches to the war office at St. Petersburg reports success in several engagements of a minor character. An undated dispatch from Kuroki's headquarters reports the present Japanese military organization to be as sufficient as it has been at any time since the war began. There is no definite news from Port Arthur. Changes in the Russian ministry of marine and in naval commands are announced on high authority. The new head of the admiralty, it is said, will be Vice Admiral Donbasoff, an officer of wide experience in war, and present head of the technical bureau of the ministry of marine.

London, Oct. 1.—According to the Post's Shanghai correspondent, it is reported there the Japanese have been victorious in a general engagement at Mukden. St. Petersburg, Sept. 30.—The report that Japan and Russia have arranged direct exchange of news regarding prisoners of war without intermediary of the United States and France is confirmed.

In view of the fact that advances have been received from the Russian consulate at Chofoo saying Japanese assaults on Port Arthur Sept. 29 to 30 were successfully beaten off, authorities at the war office discredit the Chofoo report that Japanese have captured the main forts at Port Arthur. Information of the war office proves Japanese losses during the siege have been 45,000 killed or wounded.

ON THE DEFENSIVE

Mukden, Sept. 30.—A great change in the situation here has occurred—the Japanese now appear anxious to act on the defensive and have fortified a position north-west of Yental mines. According to the best estimates obtainable, the Japanese army confronting Kuropatkin comprises 180 battalions, about 144,000 infantry; in addition there are 6,300 cavalry and 638 guns. The Russians estimate the total of Kuroki's army at seventy-six battalions of infantry, eighteen squadrons of cavalry and 276 guns; total strength of Oku's army, sixty battalions of infantry, twenty-six squadrons of cavalry and 242 guns, and Nodzu's force forty-four battalions of infantry, nine squadrons of cavalry and 120 guns.

REORGANIZE NAVY

St. Petersburg, Sept. 30.—Reorganization of the navy, which has been foreshadowed by the Associated Press, begins with the announcement on the highest authority that Vice Admiral Doubasoff, present head of the technical bureau of the admiralty, has been appointed minister of marine, succeeding Avalon, who will be given the honorary post of chief of the Red Cross society.

It is admitted the Japanese advance has already begun along the whole line, assuming the most active form in the east, whether Oyama continues to draft large forces. Operations are also progressing west of the Liao river, from which point they are evidently threatening Shantung. Return of Alexoff is practically certain, and there is good reason to believe he will succeed Foreign Minister Masuraff, who may be appointed minister of the council of the empire.

WAR REPORTS

Mukden, Sept. 30.—Delay in resumption of aggressive action by Oyama, according to the best information, is due to the necessity of making good losses which he sustained at Liao Yang and to bringing up stores and ammunition, and preparing for an active forward movement of the Japanese now seem to have been completed and a serious collision is regarded as imminent.

Algiers, Algeria, Sept. 30.—The Russian volunteer fleet steamer Smolensk has arrived here from Port Said. She will take 1,500 tons of coal on board and will await orders.

Field Headquarters Second Japanese Army, Sept. 28.—Changing the gauge of the railway has been completed within ten miles of Liao Yang and it is expected within three or four days the first train will be run over the new tracks. There is no change in the situation. Japanese outposts are now often miles to the north. There are daily clashes between Japanese outposts and Russian patrols. Usually resulting in official casualties. St. Petersburg, Sept. 30.—General Sakharoff reports that between Sept. 16 and 29 there were several skirmishes in the Yental district, all of which resulted favor-

ably to the Russians. Sept. 28 a strong vanguard of Japanese was encountered on the Mandarin road and driven back to Yental, losing twenty killed and wounded.

ACCOUNTS IRREGULAR

Berlin, Sept. 30.—Herr Barkmeyer, chief of the confidential bureau of Germany's shipbuilding works at Kiel, has been arrested for irregularities in accounts. The directors positively affirm Barkmeyer's arrest was not made as the result of charges he had sold military secrets.

WOMAN KILLED

Grand Forks, N. D., Sept. 30.—Mrs. D. McDonald was instantly killed and three badly injured by the shying of a horse driven by Mrs. McDonald. The frightened horse overturned the buggy and threw the occupants out.

GRAND CIRCUIT RACES

Major Delmar Equals World's Record of 2:02½—Other Events.

Cincinnati, Sept. 30.—The feature of to day's Grand circuit racing was Major Delmar's attempt to break the world's trotting record of 2:02½ without wind shields or pacemakers in front or side, held by Croesus and Major Delmar. Although weather conditions were unfavorable for a trial of this kind the horse equalled the world's record. The first quarter was made in 30½ seconds; half, 1:01; three-quarters, 1:30½; and mile in 2:02½. Major Delmar finished in good shape. The three other events on the card were hotly contested. GANS AND WALCOTT

Fought Twenty Rounds to a Draw at San Francisco.

San Francisco, Sept. 30.—Joe Gans and Joe Walcott, lightweight and welterweight champions, fought twenty rounds to a draw to night. The fight throughout was furious, Gans enjoying a decided advantage in the opening two rounds. After the second round, however, and until the middle of the contest Walcott had a decided lead and several times greatly outdistanced Gans, who was unable to stop his terrific onslaught of Walcott's right. In the tenth Gans had the advantage, but from the eleventh to the sixteenth it was Walcott's turn. In the seventeenth the tide turned in favor of Gans and the nineteenth nearly saw Walcott's finish. The twentieth was a repetition of the preceding round. The referee decided the fight a draw. The decision was hissed by the crowd, who thought it should have been in favor of Gans.

IMPROVEMENT NOTED IN TRADE

BRIGHT PROSPECTS FOR LAST QUARTER

Weather Conditions, Larger Crop Estimates and Better Collections Given as Reasons—Reports of Trade.

New York, Sept. 30.—Bradstreet's review of trade says: "The word 'improvement' summarizes briefly the course of trade and general industry this week. Although movements, as far as a time past, are along conservative lines, undertone is rather more optimistic than at any previous time this season. Reasons for this are found in continuance of propitious weather conditions, tendency to enlarge final estimates of grain crop yields, more activity in pig iron and better collections, based upon enlarged crop movement. Confirmation of these reports is found in indicated increases in bank clearings, both in New York and outside thereof, as compared with September a year ago, and continued gains aggregating 5 per cent in gross railway earnings over 1903. Money is, on the whole, firmer, reflecting belated crop movement necessities. A striking absence of inflationary agitation, affecting trade is noted and feeling generally is that the year will close better than it began. Notable features are improvement in jobbing trade at nearly all western points in dry goods, shoes, groceries, millinery, hardware, paints and drugs. Reports of better collections are very general. Warmer weather tends to retard retail trade somewhat, but on the whole crops mature better than was at one time hoped. Eastern trade shows fairly good tone, on rather better industrial outlook and reports of better trade are coming from the west and south. Among industries features are better buying of pig iron and firmer prices for furnace product. Northwestern advances are that the lumber cut during the winter will be a light one. Coal is rather more active, but bituminous prices are still low and not satisfactory. Eastern manufacturers of silica report good, steady orders and larger shipments than of late, but eastern shipments are 8 per cent below last year.

WHEAT, FEEDING FLOUR, EXPORTS

The week ended Sept. 24, exports for the week were 1,183,000 bushels, against 1,094,000 this week last year; July 1 to date, 17,443,000 bushels, against 16,907,000 last year. Corn exports for the week were 70,000 bushels, against 1,124,000 a year ago; July 1 to date, 7,538,000 bushels, against 12,720,000 in 1903.

DUN'S REPORT

New York, Sept. 30.—Dun's report says: The last quarter of 1904 opens with much brighter prospects than prevailed a year ago. At that time securities had fallen on an average of \$4 a share from the top point of the year previous and there was a general disposition to curtail manufacturing and commercial operations because of heavy losses. The nation was entering on a period of conservatism, augmented by labor controversies. At the present time there are no alarming features, strikes are few and unimportant, while indications of growing confidence are numerous. Business does not show hesitation customary during the closing weeks of a presidential campaign and prospect of profitable agricultural results stimulates trade, especially among retailers west and south. Building operations are expanding, providing a better demand for lumber and materials. Clothing and kindred lines are stimulated by colder weather and clearance sales are well attended. Manufacturing plants are decreasing the proportion of idle machinery. Railway earnings for September exceeded last year's by 6.8 per cent. Foreign commerce at this port for the last week showed a small decrease in exports and gain of \$2,165,446 in imports compared with 1903. Security markets have risen 34 points the corresponding date last year and money is easy and abundant. With the exception of steel rails, which are not on a parity with the rest of the market, prices of iron and steel have apparently attained a position of stability and tardy contracts are gradually coming forward. Textile manufacturing plants are still operating unimpeded in disregard of future needs, containing business to immediate requirements only. Woolen goods are more active, men's wear deliveries being on time, and larger orders for dress goods are recorded. Failures this week were 23 in the United States, against 226 last year.

New York, Sept. 30.—Total bank clearings compiled by Bradstreet's for the principal cities in the United States for the past week were \$2,011,666,498, a decrease of 1.7 per cent compared with the corresponding period last year.

EMPLOYERS ENJOINED

Leadville, Colo., Sept. 30.—Judge Owens to day issued an injunction against the members of the Leadville Mining District association restraining them from discriminating against any miner because of his being a member of the Western Federation, or from making out a blacklist, or compelling them to sign any agreement that they would discontinue membership in the federation, or from in any other way conspiring to deprive any member of the federation from obtaining employment.

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from a weak diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder. I have had a complete recovery, and will cheerfully testify to the public that it did me more good than all the things else put together and am also a better another man. I have persuaded many of my friends to try it.

GOLF NOTES.

The long deferred finals in the Kirby-Capps cup contest, which represents the mid-season championship of the club, were played off yesterday in a thirty-six hole contest. G. H. Seurlock defeated F. L. Ledford by 4 up and 2 to play in a hard fought and at times doubtful battle. Charles Sanders and Dr. George Dismore acted as caddies.

The qualifying rounds for the regular championship cup will be played next week.

A team from the Jacksonville Country club will play a match game at Hannibal next Wednesday, and it is probable that on the Saturday following a team from Keokuk, Iowa, will play on the local links.

PLEASANT SURPRISE.

Thursday night the force at Hoffman's store assembled to the number of thirty-four at the home of Miss Carrie Letton, 438 East College avenue, and proceeded in a body to the residence of Miss Edna Erwin on Hardin avenue, where Harry Hoffmann was induced to call, and there proceeded to give the young man a genuine surprise, and it was a complete success. As he is soon to leave the employ of the firm this means was taken to show the good will entertained for him by his fellow clerks, and he fully appreciated the kindness thus happily manifested.

During the evening Harry was requested to stand and then in a manner which might well make a professional orator or successful spellbinder turn green with envy, Charles L. Mathis proceeded to say a number of pleasant things to the bewildered victim of the affair and then continued with his eloquence in the presentation of an elegant desk, the gift of the clerks. Harry did the best he could to express thanks and then all enjoyed light refreshments before ending the happy occasion.

BASE BALL.

BATTLE PHOTOGRAPHS.

Captain Smith has three photographs which he prizes highly. One is a picture of the old church around which the battle of Shiloh raged so fiercely; one of the Illinois monument erected on the field and surrounded by a group of the veterans, conspicuous among whom is the captain, and the other is a photograph of some Confederate dead after the bloody battle of Corinth, Oct. 3 and 4, 1862. All are silent reminders of the great price paid by brave men that the union might be preserved.

MEET AFTER THIRTY-THREE YEARS.

William Ellis is enjoying a visit from his brother, James Ellis, whom he had not seen for thirty-three years. Since leaving his home in 1871, he has lived in Minnesota and North Carolina, and came here from Quincy unexpectedly Thursday night. During his long absence, both his parents have passed away, and many of his friends. His return to his brother is indeed a most happy meeting.

AN EMPTY SLEEVE.

Illinois State Journal: It has been suggested many times during political campaigns that there is an unwritten law against a third term in the same office. This point has been made with especial urgency with reference to the high office of president of the United States. Never in the history of Illinois has a state officer been elected for more than two terms in succession. This year the record will be broken, for the Republican party of this state will re-elect James A. Rose for secretary of state and James S. McCullough for auditor of public accounts, both of whom for the past eight years have made records that are without spot or blemish and altogether unimpeachable.

The fact that Mr. Rose was nominated on the first ballot over other worthy and competent competitors is convincing evidence that his record is all right and that the people endorse his acts as secretary of the state for the empire state of the west. That he will be re-elected for a third term in that office by an overwhelming majority goes without saying.

When a state convention like that which met here last June nominates by acclamation an official for a third term, it means something out of the ordinary. There must be something behind it to justify such action. And there was. Before he was elected state auditor, James S. McCullough had served the people of Champaign county in office for many years, and his promotion was simply an act of justice to a worthy citizen and a gallant soldier of the republic, who gave the best years of his life to keep the old flag in the sky. Mr. McCullough carries an empty sleeve, a badge of honor of which any soldier might be proud. This badge was won at Fort Blakely, Ala., in one of the last desperate battles of the civil war. In that bloody struggle the Seventy-sixth Illinois lost seventeen killed and eighty-one wounded, among the latter being "Jim" McCullough, and on that bright April day the colors of his regiment were the first to be planted on the blood-soaked ramparts of that fort, which for four long years had defied the guns of the union forces.

Talk about third terms! Such men are worthy of a hundred terms, if human life possibly could be stretched out to that extent. Too much cannot be done for the worthy men of the sixties who offered their all upon the altar of their country—men who shot treason to death upon a thousand battlefields and wiped the foul blot of slavery from the flag which to day floats supreme on land and sea, from Washington to Manila.

Y. M. C. A. NOTES.
The educational committee of the association are glad to announce that they have secured the services of Prof. Thomas E. Moore, of the high school faculty, to teach the commercial course in the night school this season.
Monday evening marks the opening of the third year of educational work done by the local association, and a larger number of students are enrolled now than any previous year. Last year throughout America, 32,000 young men were enrolled as students. It is now being recognized as a strong factor in the all-around development of strong manhood to improve the mental condition. The committee also desire to announce that this year any young man can enroll as a student, regardless of membership in the association. A class in German will be organized when two or three more men enroll; likewise one in Latin and algebra.

RAILROAD NEWS NOTES

Assistant Engineer W. W. Greenland, of the Wabash, was in the city Friday taking measurements for the new freight depot. The plans are said to be in the hands of Chief Engineer Nowhall, who will make some slight changes before the contract is let. Mr. Greenland was formerly stationed at Moberly, Mo., as the resident engineer of the western division.

T. M. Strain, master carpenter for the Wabash, was in the city Thursday night and Friday morning consulting with some of the local contractors.

A new time card for the C. & A. is expected to day. The changes will not affect this division.

The Alton Limited will attempt to cut down the time between Chicago and St. Louis from eight hours to seven. This is probably to meet the change in time made for the Banner Blue Limited on the Wabash.

The C. & A. is still running over the Illinois Central tracks at Pekin, because of the washout, which occurred there not long ago.

C. E. Jones, roadmaster of the Beardstown division of the "Q," was in the city Friday.

C. P. & St. L. engine No. 7 came out of the shops Friday and will report at East St. Louis for duty.

C. P. & St. L. section hands put in a new crossing at the junction Friday. The old one was in a dangerous condition and Wabash engineers had orders to reduce speed crossing the C. P. & St. L.

F. L. Warner, assistant baggage man for the C. & A., was in Bloomington Friday.

Freight business on the Alton has fallen off somewhat the past week. The mild weather is thought to be responsible.

LUNCHEON AT COUNTRY CLUB.

Dr. C. E. Black, counsel of the fifth councillor district of the state medical society, was the host Thursday at a luncheon given at the Country club to secretaries and presidents of the county societies of this district. The society work was discussed in an informal manner and the function proved to be a delightful one in every particular. Among those present were the following physicians: G. E. Rosenthal, Quincy; D. W. Owens, Mt. Sterling; J. A. McQueen, Virginia; P. C. Campbell, Winchester; James Miner, Winchester; D. W. Reid, Jacksonville; F. P. Norbury, Jacksonville; H. A. Chaplin, Whitehall; U. W. Chapman, Whitehall; H. B. Tetterington, Jerseyville.

KNOCKED FROM WHEEL.

A rather peculiar accident happened to John Frye as he was riding on his wheel west on State street in front of the court house Friday evening. Eugene Terry ran north across the street from the front door of the Drexel, chased by three of his companions. Not seeing Frye in the dark, he struck him with force enough to knock him from his wheel. He struck on the side of his head and received several bad scratches. Terry was also slightly injured.

HELD GOOD MEETING.

The Republicans of District No. 1 held an enthusiastic meeting at the Trinidad school house last evening. There was a large attendance and the best of feeling was displayed. The committeemen, Abel Meneses, president, and speeches were made by Eli McLaughlin, J. Marshall Miller, M. T. Layman, B. A. Van Winkle, C. L. Hayden, S. L. Austin and John N. Joaquin.

SMALLPOX EPIDEMIC.

Dr. E. F. Baker returned Friday from Belleville and East St. Louis, where he had been in the interests of the state board of health. The smallpox epidemic, which has been raging in these two places, is in abeyance, but there are still a number of cases and several deaths have occurred. Two quarantine hospitals have been built and tents are being made use of to advantage. The state board of health has rendered valuable assistance to the two cities in checking the progress of the disease.

The Wonderful Baobab Tree.

The baobab tree is considered one of the most wonderful of the vegetable kingdom. It appears that nothing can kill this tree; hence it reaches an astonishing age as well as enormous size. The natives make a strong cord from the fibers of the bark; hence the trees are continually barked, but without damage, as they soon put forth new bark. It appears impervious to fire, and even the ax is resisted, as it continues to grow in length after it is lying on the ground.

Riddles.

Why is a wedding ring like eternity? Because it is endless.
What fish is an engaged young lady always fond of? Her-ring.
What is the difference between a match and a cat? A match always lights on its head and a cat on its feet.
Why is the letter A like honey-suckle? Because a B follows it.
Why are wealthy ladies at a theater like their jewels when they get home? Because they are put in a box.

A Friend to Woman.

The late Nellie Farren, when she visited America with the London Gaiety company, danced before a well known New York club.

At the end of the dance, during an informal supper, some one began to talk about the new woman, a burning topic at that time.

"Do the English believe in woman's emancipation?" a lawyer said to Miss Farren. "Do they believe in opening the same fields to women as to men and in paying them at the same rate?"

"Oh, yes," said the little actress. "Even the English tramps believe all that. A tramp asked a country-woman of mine one day for assistance, and she said to the man sternly:

"Why don't you go to work?"
"Madam," said the tramp, "twenty years ago I made a vow not to do another stroke of work till women were paid the same wages as men."
—New York Tribune.

Offered King Edward Her Pipe.

It is said that King Edward, tells with great glee that when in the west of Ireland last year he one day went into a cabin whose occupant was an old woman who sat by the turf fire smoking an old clay pipe. The old lady welcomed the king and, asking him to sit down, wiped a three legged stool with her apron. The king did so and said:

"Do you know who I am, ma'am?"
"Begorra, I don't," was the reply.
"Well, I am the king of England."

The Only Remedy.

Captain Volger of the Koenigen Luise said the other day:
"An architect was complaining because an architects' club had been organized in his town on total abstinence principles.

"Think of it," he said, "a club where you can't get anything to drink!"

"The person addressed looked thoughtful.
"With such a club," he said, "I suppose the remedy would be to go there drunk."—New York Tribune.

Christian Principles.

Quin, the old time English actor, complained to Beau Nash of the exorbitant charges made at Bath. Nash said they were acting on truly Christian principles. "How so?" asked Quin. "Why," answered Nash, "you were a stranger, and they took you in." "Aye," replied Quin, "but they fleeced me instead of clothing me."

HAS LEASED

COLONIAL INN

Major E. Vickery Will Occupy Property as Place of Residence and Will Also Cater for Social Functions.

Major Edward C. Vickery has leased the Colonial Inn from J. Thompson Sharpe and will occupy the property as a place of residence. He will also be prepared to do catering for parties and social functions. The property has been leased for a term of years, which began Oct. 1, and Mr. and Mrs. Vickery will move from their present residence in a few days. It is their purpose to rent a number of rooms, but they will not take any table boarders. The main dining room, which is very commodious, will be used for catering purposes and social functions. Dancing parties, dinners, luncheons, etc., can be arranged for and the Inn bids fair to become an ideal place for society events and one that will certainly grow in popularity under the capable management of Major and Mrs. Vickery.

SOUTH SIDE CIRCLE.

The South Side Circle held their first meeting of the year Friday afternoon at the home of Mrs. Weir Elliott on South Main street. Instead of the regular program each member was called upon to tell of some experience during the summer months, and many referred to the delightful visit made at the world's fair. At the close of these entertaining talks a pleasant social hour was enjoyed, during which light refreshments were served.

The next meeting will be held with Mrs. A. W. Baldwin, 420 East North street, and Mrs. Galbraith will have charge of the program, the subject being "The Philippine Islands."

KILLED BY TRAIN

MANUEL DE SILVA STRUCK BY C. & A. ENGINE

Never Regained Consciousness—Taken to Passavant Hospital Where He Died at Seven O'clock.

Manuel DeSilva, the 9 year old son of John DeSilva, was struck by the south bound C. & A. passenger, No. 10, about 4:30 o'clock Friday afternoon, near the East Lafayette avenue crossing, sustaining injuries which resulted in death about three hours later, at Passavant hospital.

The boy was returning home from school and was crossing the track, when, hearing the train coming, he hastened to cross in front of it.

The accident happened about one block from the C. & A. passenger station and was in plain view of all the people who were assembled on the platform to meet the train. The lad was seen running across the track, and it seemed as if he would cross in safety, but just as he was about to step off the track his foot apparently caught in the rail, holding him just long enough for the iron monster to run down upon him. The pilot of the engine struck his right leg with such force as to throw him back against the step at the top of the pilot, smashing his head in a horrible manner.

Felton was the engineer of the train and the conductor was Wenthersford. The train ran to the depot, which is about a block away, before stopping.

Manuel's little brother and several companions were with him at the time the accident occurred, but as soon as they saw the fate of Manuel they hastened to their homes near by. Mr. DeSilva, who is one of the yard men at the C. & P. & St. L. shops, was notified immediately.

For a couple of hours after the terrible event happened the track was crowded with people, viewing the spot where the little boy met his frightful death. The injured boy was picked up by Arthur Eads and Fred Hale, and carried to Passavant hospital, where he was attended by Dr. Carl E. Black, who is the physician for the C. & A. It was thought for a little while that he had a chance for life, but he had suffered internal injuries besides the bruises and cuts about his head, and the end came while he was yet in an unconscious condition.

Mr. DeSilva and family have the deep sympathy of all their friends in their deep affliction. Their son was a bright and industrious boy and had many friends.

Coroner Reynolds was notified of the death of the child and will hold an inquest over the remains this morning.

AFTERNOON RECEPTION.

Mrs. S. D. Osborne was the hostess at a most delightful informal reception given Friday afternoon. The Osborne home was artistically decorated for the event and the beauty and harmony of the floral decorations were very pretty indeed. Dahlias in great profusion were used and the effect secured was charming. In the reception room yellow was the color scheme, the library was in red and green and white were blended in the dining room in a most artistic manner. The house was transformed into a perfect bower and the scene was one of exquisite beauty. Jeffries' orchestra furnished a delightful program of music during the reception, which was indeed one of the most pleasant social events of the fall season.

Those who assisted Mrs. Osborne in receiving were: Mrs. F. J. Andrews, Mrs. E. E. Crabtree, Mrs. Lloyd Smith, Mrs. Anna Dewees, Mrs. Frank Best, Mrs. R. O. Osborne, Mrs. O. B. Thompson, Mrs. J. E. Fairbank, Mrs. H. F. Carriel, Mrs. R. E. Thrapp, Mrs. F. E. Farrell, Mrs. J. R. Barker, Mrs. J. T. King, Mrs. C. A. Barnes, Mrs. W. L. Fay, Mrs. Frank Orser, Mrs. C. C. Capps, Mrs. J. H. Freeman, Mrs. J. H. Osborne, Mrs. W. C. Osborne and Mrs. R. N. Osborne.

Those who assisted in the dining room were: Miss Lucille Andrews, Miss Genevieve Andrews, Miss Helen Coleen, Miss Margaret Smith, Miss Estelle Davis and Miss Louise Huffman.

CALIFORNIA INFORMATION.

California is a big state; large of area, rich in natural wealth, tremendous in its scenic features and with a future full of great promise. THE FRENCH FRONTIER.

Not less than ninety-three fortified places of modern type, some of them being nearly impregnable, guard at present the French frontier from Dunkerque to Nice. Most of them have been built since the Franco-Prussian war at a cost of \$400,000,000. France has to appropriate annually about \$1,000,000 for the maintenance of these fortresses. Of late there are not a few military men and among them General Pierron, the former commander of the Fifth army corps, who express grave doubts as to the value of this chain of fortifications in time of war. They point to the fact that it would take about 600,000 men to garrison all the fortresses, including Paris and Lyons, an army which would undoubtedly be of more value in the field. General Pierron predicts a "total collapse" in case of a new war with Germany if the numerous fortifications are to be retained.

Strapping the Tongue.

In olden times the mother always had in the cabinet a silver hoe—a little thing with a long handle—by which to scrape off the coated tongue of her child, and there were phlebotomists in those days who let a few ounces of blood from a phlebotomized patient. I understand that there is to be a return to those familiar practices. Good! The other day an old friend of mine had his life saved by a generous bleeding at the nose, and another fellow was cured of neuralgia in the face by scraping his tongue with one of his wife's whalebones. This bone was taken from a corset and bent into the shape of a letter J, much elongated. The neuralgia had been bad for weeks, and physicians had been appealed to in vain. An hour after the tongue was scraped for the first time an improvement was noticed, and in a few days the neuralgia was gone, never to return.—New York Press.

FOR OVER SIXTY YEARS

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Only \$2.95 Jacksonville to St. Louis and return via THE ALTON daily until Nov. 30, inclusive. Final limit seven days from date.

Wire Fences and Lightning.

Since the use of wire fences has become so extensive the number of cattle killed each year by lightning has greatly increased. Farmers' insurance companies have investigated the matter and now come forward with a warning to policy holders. Nearly all of the cattle killed by lightning have met their death in open fields, where, in many instances, there was not even a tree to attract the electric fluid. As many dead cattle were found near wire fences, this led to the discovery that the lightning was carried along the wires composing the fences. During a severe storm, cattle are liable to run until stopped by a fence. There they stand huddled together, ready for the bolt. A remedy is suggested in running a ground wire every ten rods several feet into the earth.

Nitrogen Necessary For Life.

The atmosphere is composed of a mixture of oxygen and nitrogen, the former substance being essential to life. It has been a matter of scientific speculation, however, what part is played by the nitrogen, and whether it could be supplanted by hydrogen. Professor Marceci of Palermo, Italy, has recently shown that in an atmosphere artificially constructed with an equal amount of hydrogen substituted for the nitrogen life cannot be supported for any length of time. Professor Marceci tried to keep animals in such an atmosphere, but he found that they soon died, the same effects being noticed as would result from cold. This is explained by the fact that hydrogen possesses greater conductivity for heat than nitrogen.—Harper's Weekly.

One fare, plus \$2.00, for the round trip from Jacksonville to certain points in Nebraska and Wyoming. No fare more than \$16.30. Sept. 29, via THE ALTON.

BETTER THAN PILLS.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by all leading druggists.

PROBLEM QUICKLY SETTLED.

When Camillo di Righini, the charming child of Mme. Ella Russell, was born, his parents were in great doubt as to his nationality, for he was born two days out from New York on the Koenigin Luise, under the German flag. His mother is an American; his father, the Count di Righini, a pure Italian. On her father's side Mme. Ella Russell's grandfather was Irish and her grandmother Scotch, whereas her maternal grandfather was Welsh and her maternal grandmother Austrian. To add to these complications Camillo's birth was registered, according to law, at the first port of call, which happened to be Cherbourg, France. What was the nationality of this little Italian-American-Irish-Scotch-Welsh-German-French-English-Austrian infant? This problem found solution for a long time perplexed all Mme. Russell's friends and acquaintances, until the singer at last had the good fortune to consult Mr. T. P. O'Connor, who, without a moment's hesitation, pronounced the verdict:

"Why, av course, he's a son of old O'ireland."—London Letter.

Living Models For Jewelry Designs.

At Weimar, where since the days of Goethe artistic tastes have been cultivated under the patronage of the grand dukes, some artistically inclined ladies recently had the clever and original idea of representing a number of objects of the industrial arts by living tableaux. This idea was carried into effect with much taste, and the ladies taking part in the representation were greatly applauded.

To represent, for instance, a seal in gilt bronze two ladies clad in dresses of the color of bronze were posed, bent over a Chinese bowl, in imitation of modern industrial art which largely makes use of the graceful female figure. Brooches, combs, tie pins, pendants, belt buckles, etc., were shown in the same way. Reduced by photography into working size, these living pictures form pretty designs for jewelry. —Jewelers' Circular-Weekly.

Two Kaisers.

In many ways the two Kaisers—Francis Joseph and Wilhelm II.—present many points of contrast. In nothing, perhaps, is this more marked than in the breadth of activity of the

younger man and the quiet calm of the elder. The German emperor comes near to realizing the idea of perpetual motion; he is essentially the traveling kaiser and has visited every city of importance in Europe—Paris, perhaps, excepted. Even Paris he is said to visit incognito. The Austrian emperor, on the other hand, rarely leaves his own dominions, and now, having reached the age of seventy, he announces that he is no longer equal to the fatigue of paying return visits.—Pall Mall Gazette.

Measure of Popularity.

Though Robert W. Chambers is a popular author, he will rarely talk about his books.

"Literary conceit is distasteful to me," said he the other day, "and I like to see it taken down. It was well taken down in the case of a New York man last month. He has written a novel, and the public libraries have put this book on their shelves. The man called at one of the libraries to find out how his work was going with the public. He hoped to have his vanity tickled a little.

"Is — in?" he said to the librarian, naming his book.

"It never was out," was the reply.—New York Tribune.

Dewey's Salt Mackerel.

Even to this day Chauncey Dewey is touchy at the mention of a harmless joke which was perpetrated at his expense many years ago. At that time he was a lad checking freight on the wharf for Commodore Vanderbilt and in his spare moments was fond of fishing in the river. One day, having set his line, he went into the office near-by to resume his duties. The boys pulled it in, attached a salt mackerel and yelled to him that there was something on his hook. He hurried out, of course, only to find that he had been fooled. The joke is a sore point with the senator even nowadays, though no one seems to know just why.—Exchange.

FELL FROM WINDOW.

FOR THE LITTLE ONES.

The Game of Fascination Affords Lots of Fun.

Games of identification are those in which part of the players try to guess the names of the others from the appearance of their eyes, ears, noses or fingers. The players are divided into two parties and stand in adjoining rooms, in the doorway, between the posts of which is stretched a piece of cloth or paper with a hole in the middle. Each of one party now puts a finger through the hole, and each of the other party guesses who its owner is. As the guesses are made they are recorded, and when all have guessed he who has made the most correct guesses is the winner. The parties then change places. Instead of fingers noses, ears or hands may be put through the hole, or each may apply one eye to it. There may be only one guesser, and as soon as he makes a correct guess the person guessed may take his place.

In another game those whose names are to be guessed kneel down in a row, and their heads and faces are covered with long paper funnels, each having two holes for the eyes. To the bottoms of the funnels is pinned a sheet which hangs to the ground, concealing their bodies. Each of the guessers now takes a lighted candle and, looking at the eyes through the holes in the paper funnels, guesses who each one is. When all have guessed the paper funnels are removed. Another method of identification is by the voice.

A Lesson In Bird Nesting.

Most young men when they travel in the woods of South America have their wits about them—most, but not all. It is related of one that, seeing a parrot enter a hole in a tree, he climbed up to capture the bird in its nest, as he thought. He put in his hand and felt something soft and flabby. These, he imagined, must be the young ones. He had still sense enough, however, to try to look into the nest. So he prodded the hole wider with a stick and then saw a huge boa, its jaws fringed with the feathers of the unfortunate bird. He descended the tree in the twinkling of an eye and did not forget this lesson in bird's nesting.

Odd Figure of Speech.

At the convention in St. Louis of the Catholic Total Abstinence society a Philadelphia delegate, Joseph A. Osborn, had occasion to refer to the difference and the contrast in the lots of men. "Some," said Mr. Osborn, "become honored citizens, fruitful in good works; others become worthless vagrants, despised by all." Then the speaker used an odd and striking figure. "So," he said, "one slab of marble turns out a useful doorstep, while another only becomes a lying tombstone."

SCOTT'S EMULSION

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

A NOTRE DAME LADY

I will send free, with full instructions, some of this simple preparation for the cure of leucorrhoea, ulceration, displacements, falling of the womb, scanty or painful periods, tumors or growths, hot flashes, desire to cry, creeping feeling up the spine, pain in the back and all female troubles to all sending addresses. To mothers of suffering daughters I will explain a successful home treatment. If you decide to continue it will only cost about 12 cents a week to guarantee a cure. Tell other sufferers of it; that is all I ask. If you are interested, write now, and tell your suffering friends of it. Address Mrs. M. Summers, Box 405, Notre Dame, Ind.

FALL CLOTHES

Thinking of your new Suit or Overcoat?

Don't wait until the cold days are here and then hurry in somewhere and take what you can get.

Skip the hurry and worry by coming here now while the new Fall Suits, Overcoats, Hats and Toggery are fresh and in full bloom.

The best and most skilled manufacturers known to the trade build our clothing.

They couldn't make better clothes for love or money.

You'll find garments here just a little newer—just a little better—just a little something about them that makes them more desirable than the kind you get at most stores.

You'll like our clothes—you'll like our prices—you'll like our ways—for we never allow a man to be unhappy about anything he buys here.

Look or buy: we're ready when you're ready.

LIBRARY BOARD

Quarterly Meeting Friday Night
Resolution Introduced Looking Towards Foundation of Historical Society.

The library board met Friday evening and heard the quarterly report of the librarian, Miss Seybold. Dr. C. E. Black introduced a resolution looking to the formation of a Jacksonville and Morgan county Historical Society. The matter was favorably considered by the board and a committee consisting of Dr. C. E. Black, Hon. E. M. Kinman and Rev. C. M. Brown, was appointed to wait upon the clubs and organizations of the city to procure their co-operation in the enterprise, and to call a meeting for the purpose of organization in the near future.

The proposed organization will certainly commend itself to all who are at all interested in literary and historical subjects. There is an unusually rich field to draw from and much valuable data could be collected and preserved which would otherwise in a few years be destroyed and lost to future generations.

COLLEGE SOCIETIES.

The Illinois college literary societies held their first meetings of the year Friday evening, and begin their work under most favorable circumstances.

SIGMA PI.

At the meeting of Sigma Pi society a number of past members were present, among them Messrs. Enslay Moore and John A. Ayers, two of the staunch supporters of the organization.

The following literary program was given, but the usual debate was dispensed with owing to the number of visitors present and the time was

occupied with speeches from the past members.

Readers—McKinney, "Grattan's Reply to Carry"; Scott, "First Plea of Promises"; Wylder, "Extract from Lincoln's Debates."

Reader—Duckels, "Stepmother."

Essayists—Brook, "Essay on Tuberculosis"; Carriel, "Politics."

Orator—Bellatti, "Problem of Public Utility."

Extemporaneous—Manager Weinple, "Foot Ball Prospects."

F. A. Schroeder, '08, was received into the society.

The following resolution was passed by the society:

"In respect for our friend, Dr. C. E. Burkholder, who has befriended the boys of Illinois college in many ways, we take this means of expressing our sympathy for him in his present illness and unite in wishing him a speedy restoration to health."

After the exercises at the hall the members adjourned to Vickery & Merrigan's, where an informal banquet was held. H. H. Bancroft acted as toastmaster and the following responses were made:

"The Last Year in Sigma Pi," E. M. Duckels; "Waverly and Sigma Pi," J. E. Weinple; "The Year '04 and '05," Arthur Carriel, and "Sigma Pi and the College," R. E. Harmon.

PHI ALPHA.

Phi Alpha Literary society held their first meeting of the year last evening, and the usual enthusiasm, which characterizes all first meetings of the society, was shown by the members and the old members, many of whom were present. After the regular literary program the debate was suspended and the visitors were called upon for speeches. S. W. Nichols, Dr. F. P. Norbury, Joseph Winterbottom and Professor Rammelkamp responded with rousing talks.

The society received into membership the following list of new members: George W. White, Albert C. Shibe, Harold N. Graves, Charles B. Spruitt, Ernest R. Frost and George Massey. After three rousing cheers for old Phi Alpha, the society adjourned.

R. C. Taylor, of Virginia, was a business visitor in the city Friday.

NEW FAD IN TOWN

Many Men Getting a Sensible Habit.

In the last few days it has become the popular thing to step into Armstrong & Armstrong's store and get a pocketful of "Wadsworth Bros. Chicos," a 5c cigar that has caused many men to get what may be called the "Chicos" habit.

It is far more sensible to smoke a good 5c cigar like the "Chico" (and there is no other 5c cigar like it) than to pay double the price and get no better smoke. It is made with a clear, long Havana filler, and is especially pleasing to the man who has been smoking a 10c or two for a quarter cigar. It burns freely, and tastes good clear to the stub.

Try a "Chico," and see if you, too, do not get into the habit of frequenting Armstrong & Armstrong's drug store for your supply of cigars.

TUESDAY NIGHT—SEAT SALE THIS MORNING.

To the Public: In presenting to the patrons of the Grand, Mr. John A. Preston and his excellent company in "Ingomar," I believe I am offering one of the best and strongest attractions on the road. I think this from what I know of the people; from the strong press notices, and from what managers who have played them say. They carry their own scenery, every stitch of which is fire proof. The cast is very strong, with John A. Preston as "Ingomar," Miss Atheling as "Parthania," and Frank DeVernon as "Timarch," in all, a cast of twelve actors and actresses.

CARNIVAL FESTIVAL

VOTING FOR QUEEN HAS BEGUN

Mayor John R. Davis Will Make Presentation Speech—Where The Ballot Boxes Are Located

Ballot boxes and envelopes for the voting for the queen of the Eagles' Fall Festival were placed in a number of up-town business houses yesterday and the voting began at once. Already the contest has become quite spirited. The first count will be made to night and the result will be published in Sunday morning's Journal.

BEAUTIFUL AWARDS TO BE MADE. The awards to be made to the successful candidate will be placed on exhibition in a most beautifully decorated window at Hoffman Bros. To the queen will be presented a beautiful diamond ring, and the lady who comes next nearest will receive a sterling silver toilet set, and also acts as maid of honor to the queen.

HOW TO VOTE.

The votes cost 1 cent each and as many of them may be cast at a time by individual voters as is desired. Ballot boxes are located at the following places:

Frank's dry goods store.
Putnam's 5 and 10 cent store.
The City Drug Store.
Hoffman Bros.
Phillips' confectionery store.
W. S. Ebnie & Bro.'s confectionery store.
James McGinnis' shoe store.
Vickery & Merrigan's confectionery store.
Williamson's drug store.

A great many ballots were cast last evening and there is no doubt but what the contest will develop into a battle royal between the fair contestants and their respective friends.

Mayor John R. Davis will make the presentation speech to the queen and also crown her Queen of Jacksonville Fall Festival immediately after the triumphal parade of the queen and her court, on Thursday night, Oct. 13th.

FUNERALS

PETERSON.

The funeral services of Charles O. Peterson were held Friday afternoon at 2:30 o'clock, at Centenary M. E. church, in the presence of a large number of sorrowing relatives and friends, who gathered to pay their last tributes of love and respect for the dead. The solemn and impressive service was in charge of Rev. W. H. Wylder, assisted by Rev. Nathan English. A choir composed of Miss Aileen Arenz, Miss Corinne Munro, John L. Johnson and T. H. Rapp, sang in a feeling manner, "Jesus, Lover of My Soul," "Beautiful Land of Somewhere" and "Asleep in Jesus."

The remains were conveyed to Diamond Grove cemetery, where they were laid to rest, brief services being held, in charge of the Knights of Pythias. The bearers were: J. A. Munson, Jr., William Self, Jerome Gates, H. T. Richards, Albert Baldwin and Charles McCullough. There were many beautiful floral tributes, among them designs from the K. of P. and the D. O. K. K. They were cared for by Mrs. J. A. Munson, Miss Nellie Kinner and Miss Blenda Pierson.

Among those who attended the funeral were: Lotin Dinwiddie, Austin Patterson and mother, Andrew Johnson and family, all of Litterberry; Mrs. Claude Sandberg, of Woodson; August and Andrew Munson, of Beardstown.

HARRISON.

Funeral services of the late Cornelius Harrison were held at the Alexander M. E. church Friday morning, at 9 o'clock, in the presence of a large gathering of relatives and friends. The services were in charge of Rev. Mr. Flagg, and the church choir furnished appropriate music.

At the conclusion of the services at the church the remains were borne to the Lick Creek Chapel cemetery, where they were laid to rest. The bearers were: M. V. Baker, George Snyder, John Becker, John Waggoner, Grant Kindred and Anthony Ferguson.

DEATH RECORD

NICHOLS.

Andrew Lock Friday received a telegram announcing the death at her home in Blue Island, Friday afternoon, of his sister, Mrs. Margaret J. Nichols. She had been ill for about eighteen months.

Deceased was born at Niagara Falls, N. Y., Sept. 9, 1858. She was married in Jacksonville, Jan. 22, 1880, to James L. Nichols, who with two sons and two daughters survive. Mrs. Nichols was a faithful member of the M. E. church and leaves many friends to mourn her loss. She was a sister of Andrew and Watson Leck, of this city, and Mrs. Mary E. Reid, of Decatur.

The remains will be brought to this city for interment.

HARRISON.

Lewis Harrison, the eleven and a half years old son of Mrs. Bettie Harrison, died at the family home at 4 Goltra avenue, Friday morning at 4 o'clock, of bronchitis. He leaves besides his mother, two sisters, Mrs. Eva Moore, of Peoria, and Miss Dora Harrison, of Keokuk, Iowa; and four brothers, Henry, Charles, Leslie and McKinley Harrison, all of this city.

The funeral will be held at the residence Sunday afternoon at 2 o'clock.

GUNN.

Mrs. Anne Gunn, the widow of Rev. James Gunn, died at her residence, 826 Ashland avenue, Friday morning, Sept. 30, at 10 o'clock, after a lingering illness of some length. Mrs. Gunn has been an evangel of mercy to many homes in this city, in the capacity of a nurse. She is survived by one son and one daughter.

The funeral services will be conducted by Dr. W. H. Wylder, pastor of Centenary Methodist Episcopal church, of which she had been almost a life-long member. It is expected that the honorary pall bearers will be Methodist ministers. The music will be in charge of T. H. Rapp, by special request of the deceased.

BARTON.

Dolly Allen, the 6-months-old daughter of Mr. and Mrs. J. W. Barton, died at their home north of the city Friday morning, at 8:05 o'clock. The remains will be taken to Greensboro, Ky., for interment.

LONERGAN.

Rose Irene, the infant daughter of Mr. and Mrs. J. J. Lonergan, residing east of Murrayville, died Friday morning at 3 o'clock.

Funeral services will be held at the Catholic church in Murrayville this morning at 9 o'clock. Interment will be in Calvary cemetery in that city.

FUNERAL NOTICE.

The funeral of William Morton will be held from the residence Sunday afternoon at 2 o'clock.

Herman's for millinery at low prices.

Mr. and Mrs. C. R. Taylor returned Friday evening from a visit to the world's fair.

SATURDAY EVENING.

Oct. 1, is enrollment night at the Business college night school. Principal Hopkins will be at the college office from 7 to 9 o'clock to meet those wishing to enter school. The regular night school work will begin Monday evening, Oct. 3, at 7 o'clock. The prospects for a large class are good.

AT THE GRAND.

"Peck's Bad Boy" was given a splendid presentation at the Grand last evening by Leroy J. French's company. The play is a fun-maker of the first order and the company has a number of fine comedy artists who delight, amuse and please. There is but the merest thread of plot to the piece, but there is something doing all the time and the clever specialties and songs introduced during the progress of the play make the performance one of the best of its kind on the road. The audience was greatly taken with the presentation and the cast, without exception, scored a big success.

Here's a Heater That Pays for Itself.

Just imagine a heater that will get the same amount of heat out of one and a fourth ton of the cheapest kind of soft coal as a high price base burner will with one ton of hard coal.

That's what we claim for Buck's Hot Blast Heater. We claim also and can prove that the 38 per cent of gas and smoke in soft coal can be, and is, used as fuel in this wonderful heater. We believe you'll find it profitable to investigate. **Holds fire all night**
